MARK SCHEME for the May/June 2012 question paper

for the guidance of teachers

9700 BIOLOGY

9700/34 Paper 32 (Advanced Practical Skills 2), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2012 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

Mark scheme abbreviations:

•	separates	marking	points
,	separates	marking	point

I alternative answers for the same point

R reject

- A accept (for answers correctly cued by the question, or by extra guidance)
- **AW** alternative wording (where responses vary more than usual)
- **<u>underline</u>** actual word given must be used by candidate (grammatical variants excepted)
- max indicates the maximum number of marks that can be given
- ora or reverse argument
- **mp** marking point (with relevant number)
- ecf error carried forward
- I ignore
- **AVP** Alternative valid point (examples given as guidance)

	GCE AS/A LEVEL – May/June 2012	9700	34

Ques	tion 1	Expected Answers		
(a) (i	i)		[3]	
3	mp 1	100	 AND (simple dilution) next four concentrations (five concentrations in total) with four even intervals; e.g. 100, 80, 60, 40, 20 e.g. 100, 90, 80, 70, 60 e.g. 100, 75, 50, 25, 0 (serial dilution) e.g. 100,50, 25,12.5, 6.25 e.g. 100,10,1,0.1 and 0.01 	
MO decisions			 Do not give mark if rounds up or down e.g.12 or 13 or 6.3 if no concentrations 	
M	mp 2	 for <u>first four</u> concentrations shows the use of 100% or plant extract / correctly plant extract / P / 100 into <u>all</u> simple dilution plant extract / P / 100 <u>only for</u> <u>first one</u> in a serial dilution 	AND (P) cm ³ ;	
			Do not give mark if • if no concentrations	
	mp 3	for first four concentrations total final volume <u>10</u> ;		

Page 4	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (i	i)		[6]		
ing 2	mp 1	table with all cells drawn	AND heading (top or left of recorded data column) percentage concentration (of) plant extract or P;		
			 Do not give mark if % in cells of headed column other units mol dm⁻³ no units 		
O recor	mp 2	(heading – column or row including <u>time</u> (/)s or sec(onds);	ı mean)		
PDC			 Do not give mark if units in cells of this column / row min(utes) additional method information either headings for columns / rows variables or in cells e.g. volumes and concentration in same cells 		
2	mp 3	1p 3 (mark first column / row of recorded time taken) for at least four concentrations records whole seconds numbers less than 180 or '> or more than 180';			
MO collection		Must have <u>whole</u> numbers numbers 180 or less 			
Σ	mp 4	(mark first column / row of recorded time taken) (records correct pattern) highest concentration recorded is shorter time than lowest concentration ;			
on 2	mp 5	at least two readings per concentra	ation or six or more concentrations;		
MMO decisio	mp 6	mean / average recorded or rate recorded for two or more concentrations;			

Page 5	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (i	(a) (iii) [max 3 Mark as incorrect idea that any errors which affect all tubes equally.				
		cause of error	WITH idea of error		
	mp 1	(independent variable – different concentrations of plant extract, catalase) plant extract (on paper)	not even or bubbles / foam on side; (do not give if gas bubbles/oxygen)		
	mp 2		idea of		
		concentrations of extract	different (different pieces of paper)		
n MAX 3		time of dipping or soaking	not the same		
		extract left on paper	not removed		
etatic		thickness of paper	varies;		
CE interpr	mp 3	(dependent variable – different times for paper to rise in hydrogen peroxide solution)			
ACI		timing	paper sinking to bottom variable time for paper to reach bottom paper rises flat or paper on edge or foam on paper;		
	mp 4	hydrogen peroxide	not the same (concentration) for each square of paper or lost has P (from previous concentration) idea of used up or not new / fresh;		
	mp 5	paper	<i>idea of</i> sticking to sides;		
	mp 6	temperature of hydrogen peroxide	rises;		

Page 6	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (i	v)			[max 3]	
mp 1 (concentration of extract) idea of using more concentrations or serial dilution			al dilution		
		or			
e S		repeat;			
MAX		Ignore mean or average			
ements	mp 2	(standardised variables) use same piece / source of paper			
Jprov		same time for soaking or dipping in	to plar	nt extract;	
CE ir	mp 3	рН		use buffers to keep constant;	
A	mp 4	hydrogen peroxide		use fresh hydrogen peroxide / renew for each square (so 'not used up');	
	mp 5	container		use deeper / wider container so squares do not touch sides	
		squares		smaller or as circles;	
(b) (i)	1		[4]	
	mp 1	x-axis percentage concentration hydrogen peroxide or H_2O_2		AND <i>y</i> -axis time (/) s or sec(onds) to collect oxygen or <u>O</u> ₂ ;	
	mp 2	scale as <i>x</i> -axis <u>5 to 2 cm</u> <u>labelled each 2cm</u>		AND <i>y</i> -axis 10 to 2 cm labelled each 2cm ;	
DO layout 4	mp 3	 correct plotting of <u>five</u> points only as small cross (does not go outside square on grid) or dot (in circle) or cross in circle to <u>within</u> half a square; 			
<u>م</u>	mp 4	five plots with ruled lines exactly point to point or curve through five points	AND smoo	(quality) oth line less than line thickness on grid;	
Do not give mark if • any extrapolation		ot give mark ifany extrapolation			

Page 7	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(b) (i	i)		[3]	
L sion 3	mp 1	either ref. to increase or more hydrogen peroxide or substrate reacts with or binds to enzyme or catalase; or low hydrogen peroxide or substrate so does not react with or bind to enzyme or catalase;		
concl	mp 2	correct ref. to use of active site(s) or ESC(s) or enzyme-substrate complexes;		
ACE	mp 3	 (at high hydrogen peroxide) Idea of <u>limiting factor (or hydrogen peroxide not limiting factor)</u> too few active sites / ESCs or active sites full / allow 'enzyme saturated' temperature or pH; 		
			 Do not give mark if ref. to idea of reaction slows or slowing down or decreases 	
	[Total: 22]			

Page 8	Mark Scheme: Teachers' version	Syllabus	Paper	
	GCE AS/A LEVEL – May/June 2012	9700	34	

Question 2		Expected Answers				
(a) (i)						
PDO layout 1	mp 1	not drawn over the print of question AND no shading	AND largest blood vessel larger than 50 mm	 AND clear, sharp, unbroken lines for <u>all</u> outermost enclosed areas ; Do not give mark if less than two outermost enclosed areas or if any outermost line has any ruled or compass lines any line more than1 mm feathery or broken or dashed or gap any 'tail' or overlap 		
collection 3	mp 2	no cells	AND drawn at least tw	wo complete vessels;		
	mp 3	drawn differei must be <u>only</u>	nt vessels <u>two</u> complete vessels	AND different shapes;		
OMM	mp 4	(at least one of drawn with at (minimum thr	complete vessel least two layers ee lines)	AND in this vessel inner lining crinkled or corrugated all round;		
ision 1	mp 5	correct label r (inner line) of Must have m between the r	muscle or tunica media complete vessel with th inimum of three enclose middle and inner line	with label line to layer touching endothelium nickest wall; ed areas, line must touch middle line or be		
MMO dec		If label both or tunica med correct	vessels with muscle lia then both must be	 Do not give mark if any label which is biologically incorrect e.g. from incorrect organ or plant e.g. epidermis any label within drawn area 		

Page 9	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (i	(a) (ii) [5]					
PDO layout 1	mp 1	<u>not</u> drawn over the print of question AND no shading	AND larger than 50 mm across widest point of inner enclosed area on any alveolus	 AND clear, sharp, unbroken lines for all inner enclosed areas; Do not give mark if less than two hand drawn inner enclosed areas any of the inner enclosed areas has any ruled lines any line more than 1mm any feathery line or broken or dashed or gap in line any 'tails' or overlaps or gaps 		
O collection 2	mp 2	<u>only</u> two inner enclosed areas Ignore double lines	AND with shared adjacent wall	AND with outer line partly drawn to show each end of the shared wall;		
mp 3 at least 2 complete alveoli of different sh				t shapes;		
	mp 4	drawn all shared walls with all other alveoli (all round both alveoli)AND (walls with) at least three nuclei drawn enclosed in the alveolar wall; Do not give mark if draw cells				
cision 2	mp 5	only correct labe touches	el <u>gas exchange men</u> s the line or between	<u>nbrane</u> with label line(s) which two lines;		
MMO de				 Do not give mark if any label is biologically incorrect e.g. from incorrect organ or plant e.g. epidermis or non-observable structures e.g. cilia label within drawn area 		

Page 10	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (ii	(a) (iii) [3]						
MMO collection 1	mp 1	shows at least one value for each of C, D, E, F, and G AND correct unit mm anywhere which match values; Ignore use of metres or mm					
	ows division by 5;						
			Do not give mark for ● Sx/n unless x and n have key				
PDO display 2	mp 3	 shows at least <u>one</u> conversion of mm to mm by showing multiplication by ×1000 or 10³; or conversion from cm to mm ×10 000 or 10⁴ 			AND shows figure divided by / or ÷ 95 or 95		
					 Do not give mark if metres anywhere no mm or cm anywhere 		

Page 11	Mark Scheme: Teachers' version	Syllabus	Paper	
	GCE AS/A LEVEL – May/June 2012	9700	34	

(b)							[max 5]
PDO recording 1	mp 1	organise as a table with only three columns or rows separated by lines (no cells needed) Ignore number column				ID headings in any order ly <u>a. 2.2 / healthy</u> and <u>a. 2.3 / unhealthy</u>	AND third column or row contains features;
mp 2 <u>only observable</u> differences (at least two) recorded;							
MMO decisior		 Do not give mark if any similarities recorded any function e.g. 'for gas exchange' or not observable ta surface area to volume ratio healthy and unhealthy / bursting / damaged 					nge' or not observable tar / damaged
			featur	e		Fig. 2.2 healthy lung	Fig. 2.3 unhealthy lung
on MAX 3		mp 1	size (of air diame surfac exchai alveola	space / lumer ter) e area / gas nge membran ar wall	n / 1e	Small / small(er) larg(er) more	Large / larg(er); small(er) few(er) or less
etatio		mp 2	numbe	er		many	few(er);
E interpr		mp 3	shape or wall	of alveolus		wavy / irregular / more folded	smooth / even / less folded;
ACE		mp 4	thickne	ess		thin(ner)	thick(er);
		mp 5	numbe	er of nuclei		many / more	few(er) / less;
		mp 6	black j ignore	oarticles e tar		absent or no(one) or has not or some	present or yes or has or more;
Ignore functions ref. to colour shape of cell or nucleus 3-D descriptions such as spherical, biconcave, ball, disc tick and cross without a key diagrams				Do not give ACE marks • for each feature opposite each o statement e.g. n Fig. 2.2 differen differen Fig. 2.3 differen differen	if the difference is not ther unless comparative nore or -er nce i nce i nce i nce i		
							[Total: 18]
