Answer **one** question only on the A3 pre-printed answer sheets provided.

- 1 Television and DVD player remote controllers are often misplaced and not at hand when required for use.

Design a device that would store two remote controllers and enable easy access to the user.

- (a) List **four** additional points about the function of such a device that you consider to be important. [4]
- (b) Use sketches and notes to show **two** methods by which items such as remote controllers could be protected from damage when being stored. [4]
- (c) Develop and sketch ideas for the storage device. [12]
- (d) Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- (e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and major dimensions. [12]
- (f) Suggest suitable specific materials for your solution and give reasons for your choice. [4]
- (g) Outline a method used to manufacture **one** part of your solution in the school workshop. [6]

- 2 The packaging of items for display in shops can have significant effects on the number of products sold.

Design a lightweight package for the MP3 player and accessories shown. It should be possible to view only the MP3 player when the items are in the package.

- (a) List **four** additional points about the function of such a package that you consider to be important. [4]
- (b) Use sketches and notes to show **two** methods used, so that contents can be placed into and removed easily from a package. [4]
- (c) Develop and sketch ideas for the package. [12]
- (d) Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- (e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and major dimensions. [12]
- (f) Suggest suitable specific materials for your solution and give reasons for your choice. [4]
- (g) Outline a method of producing a prototype of the package in the school graphics studio. [6]

- 3 Some young children are afraid of the dark and will go to bed only if a light is left on.

Design a battery powered light that would fit into the bedroom environment of a small child and turn off automatically after a preset time.

- (a) List **four** additional points about the function of such a light that you consider to be important. [4]
- (b) Draw any **two** types of battery that could be used to power such a light. [4]
- (c) Develop and sketch ideas for the light. [12]
- (d) Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- (e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and major dimensions. [12]
- (f) Suggest suitable specific materials for your solution and give reasons for your choice. [4]
- (g) Outline a method used to manufacture **one** part of your solution in the school workshop. [6]
