UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the October/November 2010 question paper for the guidance of teachers

0452 ACCOUNTING

0452/21

Paper 2, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	•				. ,	(2) C/F	
						(1) O/F	[11]

- (c) A contra entry is when an account in the sales ledger is set against an account in the purchases ledger. (1) Such an entry is made when a supplier is also a customer of the business and has an account in both ledgers. (1) [2]
- (d) The sales ledger control account acts as a check on the sales ledger. If there is an error in the sales ledger it will not be revealed by a control account prepared from the individual accounts in that ledger. [2]

(e)
$$\frac{22415}{275000} \frac{\text{O/F}}{\text{J}} \times \frac{365}{1} = 29.75 \text{ days} = 30 \text{ days} \text{ (1)O/F}$$
 [2]

(f) Offer cash discount for early payment
Charge interest on overdue accounts
Improve credit control
Refuse further supplies on credit until any outstanding balance is paid
Invoice discounting and debt factoring

(c) The accruals (matching) principle states that revenue of the accounting period must be matched against the costs of the same period. (1)

The rent relating to the financial year ended 31 July 2010 is transferred to the income statement (profit and loss account). (1) The rent paid during the year relating to the previous year is not included but the rent owing at the end of the year is included. (1) [3]

Page 5	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – October/November 2010	0452	21

(d) Bank manager

Assessment of prospects of any requested loan/overdraft being repaid when due Assessment of prospects of any interest on loan/overdraft being paid when due Assessment of the security available to cover any loan/overdraft

Lenders

Assessment of prospects of any requested loan being repaid when due Assessment of prospects of any interest on loan being paid when due Assessment of the security available to cover any loan

Creditor for goods

Assessment of the liquidity position Identifying how long the business takes to pay creditors Identifying future prospects of the business Identifying what credit limit is reasonable

Manager (if any)
Assessment of past performance
Basis of future planning
Control the activities of the business
Identifying areas where corrective action is required

Or other suitable interested persons e.g. employees, government bodies, competitors, take-over bidders etc

TWO business people to be identified (1) each

ONE acceptable reason required in each case (1) each

[4]

(e) (i) Non-financial aspects

Accounts only record information which can be expressed in monetary terms. (1) This means that there are many important factors which influence the performance of a business which will not appear in the financial statements (final accounts) e.g. quality of management, goodwill, skill of workforce etc. (1)

(ii) Historical cost

Transactions are always recorded at the actual cost. (1)

This means that it can be difficult to compare transactions which have taken place at different times because of the effect of inflation. (1)

[Total: 20]

4 (a) Authorised share capital is the maximum amount of share capital a company is allowed to issue. (2)

Paid-up share capital is the total amount of capital a company has received from its shareholders. (2)

Page 6	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – October/November 2010	0452	21

(b) (i) $4\% \times 25\,000$ shares of \$1 each (1) = \$1000 (1)

(ii) $3\% \times $15\,000$ (1) = \$450 (1)

(iii) $5\% \times 60\ 000\ \text{shares of } \$0.50\ (1) = \$1500\ (1)$

[6]

(c)

	Income Statement Profit & Loss Account	Appropriation Account	Balance Sheet	
Debenture interest payable	✓	No entry	✓	(2)
Ordinary share dividend payable	No entry	√	✓	(2)

[4]

(d) \$
 Ordinary share capital 30 000
 Preference share capital 25 000
 Debentures 15 000
 70 000 (1)

[1]

(e)
$$\frac{11840}{70000} \times \frac{100}{(\text{O/F})} \times \frac{100}{1} = 16.91\% \text{ (1)O/F}$$
 [2]

(f) If the return on capital employed increases it indicates that the company is employing its resources more efficiently. (2) [2]

[Total: 19]

5 (a) To compensate for the fact that she does more work than Samuel.

Or

To recognise the work that she does in the partnership.

4 571

1 762 101 762 **(1)O/F**

Horizontal format acceptable

Interest on drawings

Interest on capital

Share of profit

Less Drawings

Calculation of current account balances outside balance sheet acceptable if presented in the form of ledger accounts [10]

(d) Injection of capital

Long term loan

Sale of surplus non-current (fixed) assets

Reduction in drawings

Or other suitable points

Any 2 points (1) each [2]

(e) Does not include inventory (stock) in the calculation. (1)

Either

Inventory (stock) is not regarded as a liquid asset – a buyer has to be found and then the money collected. Some goods may prove to be unsaleable. (1)

Or

The quick ratio shows whether the business would have any surplus liquid funds if all the current liabilities were paid immediately from the liquid assets. (1) [2]

[Total: 18]
