MARK SCHEME for the May/June 2011 question paper

for the guidance of teachers

0610 BIOLOGY

0610/61

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	IGCSE – May/June 2011	0610	61

(Question	Mark scheme	Mark	Guidance / comments		
1	(a)	Blue / blue black / black;	[1]	Ignore purple / mauve / brown		
	(b)	(Change in colour) to white / yellow / paler blue / paler blue black / paler black;	[1]	Accept grey / colourless / brown / yellow orange / blue black weakened Ignore reference to "change in colour" only / black colour disappears / bleach		
	(c) (i)	72; 78;	[2]	Correct answers = 2 Mark independently If both incorrect allow 1 mark for correct working		
	(ii)	 O – Orientation; A – Axes labels; S – Scale; P – Plots; L – Line; 	[5]	 O 'x' axis – time in mins and 'y' axis – number of new areas or total areas (where there had been a reaction) If total number plotted (wrong curve) = max 4 do not award A S plots to fill at least ½ the grid in both dimensions P accept +/- 0.5 mm (½ a small square). L points joined by ruled lines point to point or a smooth curve Do not allow extrapolation or double/thick lines 		
	(iii)	Two marks from: age difference / gender difference / different types of goat / genetic difference / health of goat / concentration of enzyme (in saliva) / diet / hunger level / AVP;;	MAX [2]	Ignore references to pH and temperature Ignore references to paper starch levels

	IGCSE – May/June 2011	0610	61

3 (a) (i)	Possession of ou layers / 'roundish'		n / rind / bark / have ex;	[1]	Ignore references to cells / colour	
(ii)	Three differences from:				Accept comparative answers in one box only	
	difference	ginger stem	lotus stem		If answers are in one box only, they must be comparative Ignore references to phloem and xylem	
	shape	irregular / oval / random / AW	round / circular/ cylindrical / symmetrical / AW;			
	cavities / holes / gaps / pores / pipes / air spaces	none / compact	cavities present / arranged in circle / porous / AW;			
	inner layer	fibrous / fibres / hair like	holes / gaps present / AW;	[3]		
	outer layer / bark / skin / wall	dark / thick / rough	k light / thin / smooth / not visible / AW;			
	colour	more uniform	dark patches / AW;			
	AW;					
(b)	Feature [1] + linke	ed explanatio	on [1]		'Gas filled holes helps them to float' = 2 marks	
	holes / vessels / AW;		atation / buoyancy / gas ed / gas exchange/ AW;			
	cylindrical / bend flexibility;		sist currents / prevents amage;			
	smooth / surface less;	area Le	ess pressure from water;	Max [2]
