UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the May/June 2006 question paper

0637 CHILD DEVELOPMENT

0637/01

Paper 1, maximum raw mark 100

MMM. Hiremepapers.com

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now instead included in the Report on the Examination for this session.

• CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2006 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Section A

Question 1

Boy

Girl

Question 2

Advantages - any two from:

- nappy changing quick and easy
- good fit available in different sizes
- designs for day or night wear
- stretch waistbands from comfort
- easy to use fastening tapes
- waterproof covering
- can just throw them away

Disadvantages

- more expensive
- environmental issues (only allow one of these)

Question 3

swallowing and sucking reflexes	
rooting reflex	
grasp reflex	
walking reflex	
startle reflex	
falling reflex/moto reflex	(any 5 x 1)

Question 4

Any three from:

- safety gates with childproof locks
- stairs not slippery (if wood)
- carpet not worn or loose (if carpeted)
- no toys etc. left on stairs

Page 2	Mark Scheme	Syllabus	Paper
	IGCSE – May/June 2006	0637	01

Question 5

(a) Any four from:

- baby can be helped to breathe
- filters and humidifies air
- keeps' baby's temperature constant
- keeps baby isolated
- temperature control and check heartbeat
- transparent so baby can be constantly observed
- "portholes" allows baby to have contact

(b) Two from

- monitors baby's concentration of oxygen
- linked to alarms when problems occur that baby may have
- display on screen of baby's functions to be observed

Question 6

Any three from:

- cystic fibrosis
- haemophilia
- thalassaemia
- sickle-cell anaemia
- muscular dystrophy
- PKU

(any 3 x 2)

Question 7

To strengthen muscles which come under great strain in pregnancy and childbirth

To prevent a leaky bladder which some women suffer from after pregnancy [4]

[Total: 30 marks]

Section C

Question 10

(a) Answers to include:

Advantages for the child:

- comfort of familiar surroundings
- one to one care from same person each day
- more personal attention
- no commuting time
- less possibility of contact with childhood illnesses

Disadvantages for the child:

- few opportunities to socialise
- difficulties if parents have to work long hours
- sees nanny as parent figure
- possibility of a sense of loss if nanny leaves

Advantages for parent:

- fewer problems about getting to work on time
- no worries about picking up the child if delayed
- no need to take time off work if child is unwell

Disadvantages for parent:

- problems of sharing home with another person
- higher cost when compared to nurseries
- competition for the child's affection
- care not monitored
- worries about qualifications
- lack of back-up if nanny is ill

Page 6	Mark Scheme	Syllabus	Paper
	IGCSE – May/June 2006	0637	01

(b) Answers may include:

- secure entry system
- staff knowing children's names
- children welcomed when they arrive
- children playing happily
- a wide variety of toys and equipment
- equipment in good condition
- a child needing help is heeded
- praise and encouragement for children
- outdoor play areas available
- a calm atmosphere
- care for children if parents are late

High level response 14-20

A good candidate will show a wide knowledge of the advantages and disadvantages of in-home childcare with reference to the child and parent.

They will also describe the points a parent would look for in visiting a nursery.

Mid response 7-13

Responses will be limited, explanation will be brief and may not be balanced. Answers will lack detail.

Low level response 0-6

Very limited responses, lacking depth and detail, perhaps only a few bullet points given.
