

UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS
International General Certificate of Secondary Education

MARK SCHEME for the October/November 2008 question paper

0680 ENVIRONMENTAL MANAGEMENT

0680/04

Paper 4 (Alternative to Coursework), maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2008 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

INDIA

- 1 (a) (i) 1050; 350; [2]
- (ii) lower labour costs; less regulation; AVP; [1]
- (iii) metals recycled; less mining needed/eq; less energy used to produce metals; [2]
- (iv) dangerous work/no safety procedures; fall of ship; e.g. of accident; [2]
- (b) (i) site 2; [1]
- (ii) site 1; [1]
- (iii) highest reading on site 3 but this is not most polluted/eq; [1]
- (iv) organotin, PAH's;; [2]
- (v) tired; loss of weight; cancers; poor coordination/any nervous disorder; [2]
- (c) (i) orientation; scales; plots with key;; [4]
- (ii) both have peak nearest ships/ both drop away further from ships; slower decline towards G/eq; [1]
- (iii) organotin, it is more soluble in water; [1]
- (d) (i) poisons/toxins pass through food chains; ref to bioaccumulation/ biomagnification; high concs are lethal; [2]
- (ii) short term profit/eq; [1]
- (iii) build dry docks; more samples taken; fine heavy polluters; AVP; [2]
- 2 (a) (i) move to slum – all they can afford; find work there; AVP; [2]
- (ii) lots of industry inside slum; lots of low paid jobs in city; [1]
- (iii) yellow fever/dengue fever/malaria spread by mosquito; cholera/typhoid spread by water; [2]
- (iv) sewage floods slum spreading bacteria into houses; drinking water contaminated; bacteria can multiply in warm wet conditions; AVP; [2]
- (b) (i) people will demand compensation; city does not have alternative land; city would have to provide permanent buildings; [2]
- (ii) lack of trust; interfere with way of life; might have to pay taxes; AVP; [2]
- (iii) stay – only earn enough for basic needs; too expensive to live out/wages too low to live out; AVP; [2]
