Fig. 3 for Question 4

Hi, We're BudgetAir!

How did it start?

We started in 2001 with 2 old aircraft. We bought BudgetAir from its Malaysian owner for MYR 1 (US\$ 0.25 cents) and also BudgetAir's debt of MYR 40 million (US\$11 million).

In 2016 we had over 400 planes flying to 88 different destinations.

How did we do it?

- a) **Low Fares.** We are committed to low fares, it lies in our promise 'Now Everyone Can Fly!' Our service targets guests who can do without the frills of full service airlines in exchange for low fares.
- b) **25 minute turnaround.** Less time on the ground and more time in the air means we get the most use out of every aircraft, lower costs and greater airline and staff productivity.
- c) **Low Cost Carrier Model. Self automation** = the more you DIY (self check in), the more we save on operational costs – that means lower fares.
- d) **No Frills** – pay only for what you want. If you want additional inflight comfort just add it on.
- e) **Cost Saving Innovations** – constantly looking out for the latest ways to make savings.
 - One of the first airlines to use the A320 aircraft, installed with 'sharklet wing tips', to lower wind drag and provide better fuel consumption.
 - We utilise regional airports rather than international gateways meaning cheaper fees, faster turnarounds and easy access for our customers, helping to lower costs and reduce prices.
