MARK SCHEME for the October/November 2006 question paper

MMM. Hiremepapers.com

0652 PHYSICAL SCIENCE

0652/05

Paper 5 (Practical Test), maximum raw mark 30

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

The grade thresholds for various grades are published in the report on the examination for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2006 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

UNIVERSITY of CAMBRIDGE International Examinations

Page 2		Mark Scheme		Syllabus	Paper
			IGCSE - OCT/NOV 2006	0652	5
1 (a)	(i)		is 70 or 71 mm		[1]
	(ii)(iii)Table				
		x values	learly in mm are spaced by 4-6 mm each time decrease as x increases		[3]
(b)	(i)	Graph			
		Sensible Plotting o Best stra	ight line. If not straight or line is wrong, lo	se this mark and	[4]
	give none for (b) part (ii)				
	(ii)	\mathbf{y}_{o} correctly determined see note above re line value is between 73 and 75			[2]
(c)	(i)	outline drawn and correctly labelled CG is correct for candidate's figure			
	(-)				[2]
	(ii)	line corre measure		[2]	
	(iii)	point M o	correctly marked		[1]
					Total 15 marks
2 (a)		solid A solid B	fizzing/effervescence no reaction or white ppt.		[2]
(b)		solid A solid B solid C	no reaction or dissolves red litmus blue, therefore ammonia no reaction		[4]
(c)		solid B solid C	no reaction (allow slight white ppt.) white ppt., soluble in excess		[3]
(d)	 (d) solid A is an acid because fizzes with sodium carbonate solid B is a base because it liberates ammonia with NH4⁺ solid C is a salt because it precipitates with aq. ammonia (or by deduction) 				[3]
(e)		Must use C , no ppt. with Ag ⁺ (ONE) white ppt. for sulphate test (ON			E)
		Sulphate (ONE)			[3] Total 15 marks
