UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the October/November 2006 question paper

0495 SOCIOLOGY

0495/02

Paper 2, maximum raw mark 60

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

The grade thresholds for various grades are published in the report on the examination for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2006 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

		IGCSE - OCT/NOV 2006	0495	02	
	n A: Family	performed by families have changed as societies have mode	prnisod		
. 1116	iulictions į	performed by families have changed as societies have mode	iiiiseu.		
(a)	(a) What is meant by the term functions?				
	Functions may be defined as the socially prescribed contribution or roles of a social institution. A clear definition along these lines = 2 marks; an incomplete definition showing some understanding = 1 mark.				
(b)	Describe two functions that families perform in traditional societies.				
	Relevant functions include, for example, welfare, economic, education, health care, socialisation, care of young children etc. One mark for each function identified and one mark for describing accurately each function (2×2) .				
(c)	How have	e family functions changed as societies have modernised?		[6]	
	Fewer and more specialised functions; less division of labour in the performance of functions; more sharing of functions with other institutions. Level 1: A few basic observations, possibly relying mainly on assertion and with some over-generalisation.				
	Level 2: A clear and accurate explanation is offered. At the top of the band, answers will reach appropriate and well- reasoned conclusions.		0-3 ach $4-6$		
(d)	To what	extent is the family in decline in modern industrial societies	?	[8]	
		still perform the key primary functions of reproduction, child rearing contribute to other functions (e.g. education, health care, econogree.			
		A few general points based on commonsense rather than sociolo at this level.	ogical insight can be	e 0 – 3	
	Level 2: A few relevant sociological observations are made, possibly relying on reference continuing importance of the primary functions of the family.		-	4 – 6	
	of the bar	The answer will consider several ways that the family remains im nd, there may also be some recognition that there are disagreem mportant the family remains and in what ways.			
	Over the last century there has been a sharp rise in the divorce rate in most industrialised societies. However, divorce is not the only form of marital breakdown.				

What is meant by divorce? (a)

[2]

Divorce refers to the legal termination of a marriage. The legal nature of the termination must be noted for two marks: one mark for evidence of partial understanding.

(b) Describe two other forms of marital breakdown.

[4]

Other forms of marital breakdown include separation, desertion and unhappy marriages. One mark for each example identified and one mark for describing accurately each example (2 × 2).

Page 3		Mark Scheme	Syllabus	Paper	
		IGCSE - OCT/NOV 2006	0495	02	
(c)	Why are	divorce rates rising rapidly in most Industrial societies?		[6]	
	Relevant factors include: changes in the law making divorce easier to obtain; growing independen of women; the cost of divorce is no longer prohibitive; less social stigma attached to divorced people; etc.				
	Level 1: At this level the answer will be confined to just one or two relevant factors, with little dept of understanding. Level 2: A basic review of several relevant factors would fit the bottom of the band. A more developed answer with evidence of good sociological understanding would merit full marks.			0 - 3 4 - 6	
(d)	(d) What are the effects on society of a high divorce rate?		[8]		
	Beware of prescriptive answers. The effects should be discussed in terms of, for example, the costs of supporting single parent families, the possible (though debatable) links between broken homes and social problems such as juvenile delinquency and teenage suicide, and the impact on attitudes to marriage and family life.			ı	
	Level 1: A few general points based on commonsense rather than sociological insight would fit this band.			0 – 3	
	Level 2: A few relevant sociological observations made, possibly confined to a narrow range of points, would fit the bottom of the band. A wider range of effects or more detailed treatment of a				
	few effects would merit the top of the band. Level 3: Answers will demonstrate a good understanding of the issues raised by the question and a range of effects will be considered in reasonable detail.				
Section	ı B: Educat	ion			
curr	iculum. Bo	major role in the socialisation process and this occurs main owles and Gintis argue that schools are important in preparing obedient members of the workforce.			
(a)	What is r	neant by the term hidden curriculum?		[2]	
	and teach	en curriculum may be defined as the 'unstated agenda' involved ners' attitudes that develops behaviour and beliefs that are not pa and accurate definition along these lines = 2 marks, 1 mark for evinding.	art of the formal timeta		
(b)	Describe	two examples of how schools may reinforce gender roles.		[4]	
	Schools may reinforce gender roles through, for example, differences in subject choice, attitudes of teachers, use of education materials that portray traditional gender roles, etc. One mark for each example identified and one mark for describing accurately each example (2×2) .				
(c)	What is t	he role of the 'self-fulfilling prophecy' in relation to education	onal achievement?	[6]	
	Level 2: A sound understanding of how the self-fulfilling prophecy works would fit the bottom of			0 – 3	
	the band. A more developed answer with evidence of good sociological understanding would merit full marks.			4 – 6	

Ь.		10002 00111101 2000	-
	(d)	To what extent do schools prepare young people to be obedient members of the workforce?	[8]
		Level 1: A few general points based on commonsense rather than sociological insight would fit this band.	3 0 – 3
		Level 2: A few relevant sociological observations are made, possibly relying on a descriptive account of Bowles and Gintis' theory, whether or not these sociologists are mentioned by name. A general functionalist account of the roles performed by schools would merit no more than four	
		marks. Level 3: Answers will demonstrate a good understanding of the issues raised by the question and there will be some attempt to assess the extent to which schools prepare young people to be obedient members of the workforce.	4 – 6 7 – 8
4.	Some	e groups benefit more than others from the formal education system in modern industrial sties.	
	(a)	What is meant by the term formal education?	[2]
		Formal education is the form of education provided by schools and colleges through organised and structured learning. A clear definition along these lines = 2 marks; an incomplete definition showing some understanding = 1 mark.	
	(b)	Describe two ways in which formal education may improve a person's chances of being successful in society.	[4]
		One mark for each way identified and one mark for describing accurately each example (2 × 2).	
	(c)	What problems do children from poor families face in being successful at school?	[6]
		Level 1: A few basic observations, possibly relying mainly on assertion and with some over-generalisation.	0 – 3
		Level 2: Several appropriate problems are identified and, at the top end of the mark range, the candidate may cover factors relating to both the home background and the school.	4 – 6
	(d)	How far would compensatory education programmes improve the opportunities of children from poor families?	[8]
		Level 1: A few general points based on commonsense rather than sociological insight can be expected at this level.	0 – 3
		Level 2: Answers will demonstrate a basic understanding of the concept of compensatory education and there will be an attempt to show how it may improve the opportunities of children from poor families.	on 4 – 6
		Level 3: As for the previous band, though there will also be an attempt to assess how far compensatory education programmes improve the opportunities of children from poor families.	7 – 8
Se	ection	C: Crime, Deviance and Social Control	
5.		existence of the 'dark figure' means that official crime statistics fail to provide a complete rd of the amount of crime that is committed in society.	
	(a)	What is meant by the term 'dark figure'?	[2]
		The dark figure of crime may be defined as the amount of crime that is unknown to the police and goes undetected. A clear and accurate definition along these lines would = 2 marks; an incomplete definition showing some understanding = 1 mark.)
	(b)	Describe two reasons why some crimes are never reported to the police.	[4]
		One mark for each reason identified and one mark for describing accurately each reason (2 x 2)
