MARK SCHEME for the October/November 2012 series

0654 CO-ORDINATED SCIENCES

0654/21

Paper 2 (Core Theory), maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

	Page 2	Mark Scheme	Syllabus	Paper
		IGCSE – October/November 2012	0654	21
1	a p me unit	ement givenword narticle with an negative electrical chargeelectroasures electrical currentammeof potential differencevolt ;s not conduct electricityinsular	iter ;	[4]
	(b) (i)	goes out ; incomplete circuit ;		[2]
	(ii)	so that they can be individually turned on and off ; so that they all get the full mains voltage ; so that if one fails the rest still operate ;		[max 2]
	(iii)	$R = R_1 + R_2; = 2.4^{\circ}(\Omega);$		[2]
				[Total: 10]
2	(a) (i)	A ; B, E, F ;		[2]
	(ii)	starch/cellulose/sugar/any other correct;		[1]
	(iii)	0.04 ; (allow 0.03)		[1]
		sing out food that has not been digested ; ugh the anus/as faeces ;		[2]
	(c) (i)	increase (in number of worms emerging) to maximum maximum response at 460/500 Hz ; idea of steeper decrease than increase ;	im then decrease;	[max 2]
	(ii)	to prevent extinction (of earthworms) ; reference to effect on food chains/ecosystem ; because they improve the soil structure; because they improve soil fertility; other valid point ;		[max 2]
	(iii)	less likely to be killed by moles ; more likely to breed ;		[2]
				[Total: 12]

			IGCSE – October/November 2012	0654	21		
5	(a) (i)	-	ose/carbohydrate/sugar + oxygen ; on dioxide + water ;		[2]		
	(ii)		able temperature/warmth ; er/moisture ;		[2]		
	(b) (i)		control/to check that difference (in measurement)	was caused by	[1]		
	(ii)	 (ii) increased rate of respiration with increased temperature/positive correlation 10 °C rise doubles rate; 					
	(iii)	 (iii) no respiration/very little respiration ; enzymes do not work at high temperatures/enzymes denatured ; 					
					[Total: 9]		
6	(a) (i)	ther	mal/light/sound (any two for 1 mark) ; (allow KE)		[1]		
	(ii)	incre	eases the rate ;		[1]		
	(b) (i)		as 13 protons ; icle B is uncharged/also has 13 electrons ;		[3]		
	(ii)	A ar	nd D ;				
		•	s) ion of oxygen and (D is) ion of aluminium ; als and non-metals bond ionically/owtte ;				
			have opposite electrical charges/they attract each	other ;	[max 3]		
	(c) (i)	oxyg	gen ;		[1]		
	(ii)	pota	vork mixture needs oxygen to burn ; ssium perchlorate produces oxygen (when heated) that oxygen needs to be produced in situ/air c		into		
			vork mixture ;		[max 2]		
					[Total: 11]		
7	(a) (vis						
		a-red rowa			[3]		

	Page 5				Paper
			IGCSE – October/November 2012	0654	21
	(b) (i)	nucl	eus splits ;		[1]
	(ii) (iii)	caus work	roys/damages cells/DNA ; ses cancer/mutations/radiation burns ; < behind protective screen ;		[1]
			r badge ; r protective clothing ;		[max 2]
					[Total: 7]
8	(a) (i)		scrotum ; urethra ;		[2]
	(ii)		arries, sperm/semen ; oduce fluid, for sperm to swim in/containing sugar	;	[2]
	(iii)	labe	I to testis ;		[1]
	(b) (i)	nucl	eus ;		[1]
	(ii)		e is XY and female is XX ; rromosome from egg and either X or Y from sperm ;	;	[2]
	fro sh	m mot aring r	ther to baby in uterus ; ther to baby in breast milk ; needles insfusion ;		[max 2]
					[Total: 10]
9	(a) (i)	com	rine/an element cannot be broken down into simple pounds can be simplified/are made of (different) el rine/an element made of one type of atom ;		
			pounds contain different atoms bonded together ;		[max 2]
	(ii)		us/Universal Indicator paper/solution ; ched ;		[2]
	(b) (i)	liqui solic			[2]
	(ii)		rine reacts with (sodium) bromide ;		
			asing/displacing bromine ; nine is orange ;		[max 2]
					[Total: 8]
